

## **Thank You letter from our Director of the House of Love, Paule:**

"I want to sincerely thank all the members and supporters of Agape for the great help you have given us. Although there is still much to be done, we are deeply satisfied with the wonderful work accomplished when Poppa Mike and Brother Larry left all their activities to come all the way to Fort -Liberte to assist us under the mosquito bites and the heat of the charcoal fire where we used to cook. The situation of the house has completely changed. Only God could have performed such a miracle. We also thank you for providing and installing the solar system including the inverter, solar panels, batteries and all electrical components together with the fans that now help us stay cool and comfortable. These installations have made life much easier for the children and have brought greater safety comfort and joy to everyone here.

The children are so happy for the light because they no longer have to live in darkness. They are also happy because you came all the way to Haiti to show them how much Jesus loves them and how much God loves them. This love will remain in their hearts for a long time.

Thank you for thinking of House of Love enough to come and demonstrate the love of God that lives in your hearts.

God bless you all.

With Gratitude,

**Paule Joseph -For the House of Love"**
